

## PEN films

### Properties:

---

- + Insulation class F (up to 155°C)
- + High mechanical strength
- + Good chemical resistance
- + High dimensional stability and tear strength
- + Higher glass transition temperature than PET
- + Fills the gap between PET (e.g. Mylar® A, Hostaphan®) and KAPTON®
- + Good resistance to hydrolysis (low water absorption).

### Application:

---

Specially developed for use in electric motors with increased on-stress as slot and phase insulation, as well as a cover slider.
